PJ Networks
Ruckersville, Virginia 22968

Dear Phil:

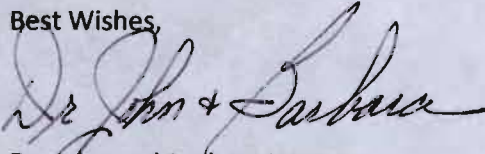

As part of protocol and accurate records the spine of any business to-day is its computer and the peripherals and software systems chosen by the company owner and the network they run on.

When I first met Phil, at a Chamber of Commerce meeting, he presented himself and his services with deep confidence and energy. Your promise of service until the job was completed is what was projected, all in a timely fashion. After services were negotiated, you arrived on time, stayed until the job was completed. For a small problem that manifested later on you again arrived on time fixed the problem with a smile.

I believe our county will be well served by PJ Networks. Reliable, fair and honest are the cornerstones of this computer repair and service company.

With regards for your success in the years to come.

Best Wishes,

Dr. John and Barbara Hayes
